## Regulatory Review and Summary

Reference number : TS-40630E  
Applicant details : Les Compounds Felix  
3455 Richelieu St.  
Hubert, Quebec J3Y 7P9  
Test Report number : TWNC00380819  
Date issued : Jul 9, 2014

### Testing in relation to:

---

Regulation/Standard : A specified subset (select heavy metals and phthalates) of substances with reference to California Proposition 65 (the Safe Drinking Water and Toxic Enforcement Act of 1986).

Requirement(s) : California Proposition 65 requires a warning label to be placed on a product where the product exposes a user to one or more of the listed chemicals known to the state to cause cancer or reproductive toxicity.

The Substance List contains over 900 substances. The official OEHHA site contains the full substance list:  
<http://www.oehha.ca.gov/prop65.html>

Interpretation of Results : The tested substances include those considered during the California Proposition 65 Risk Assessment to be of significant risk.

The substances identified as significant risk are not present in the submitted samples.

### Testing performed:

---

Sample description : TTII PRO-MAX 37 TPE INFILL

Test method : Intertek in-house method. See test report for specific methods based on substance type.
