

# SPECIFICATION SHEET

## TTII CRYSTAL BRIGHT™ INFILL

### TYPICAL PHYSICAL PROPERTIES

Green color-coated sand  
Non acrylic coating  
Non microplastic coating  
Antimicrobial included in 50 lb bags / optional for bulk bags and bulk  
Prop 65 Compliant  
Mohs Hardness 7  
Bulk Density 90-100 lb/ft<sup>3</sup>  
Specific Gravity 2.65  
Moisture Content less than 0.05%

#### Published Test Reports:

- CAM 17 Toxicology 6020B ICP/MS
- Heavy Metals Toxicology for Leachates DIN 18035-7
- 100% survival rate after 96 hrs rainbow trout fish test
- In compliance with PAHs - ASTM F3496
- Passes heavy metals by migration EN71-3
- Does not agglomerate at 230°F as per EN15330-5
- 5000 hr UVA testing
- 20,000 Cycle Lisport testing
- In compliance of phthalates DIN 18035-7
- No cracking, no agglomeration, minimal color change after 72hr hydrochloric acid test

Produced in the USA by sole source  
Available in 10-20, 20-40 & 30-50 gradations
