

# SPECIFICATION SHEET

TTII PLAYSAFE 65™ COLOR-COATED EPDM

Produced in USA

Base granule 100% EPDM virgin material

Contains no recycled materials

Urethane color-coated EPDM with antimicrobial option

Color coating is UV stabilized

Published test reports:

- FIFA 2015 and World Rugby 2020 UVA 5000 hr testing
- Friability EN933-1, EN1097-3, EN15330-5
- Lisport – no negative effects after 20,000 cycles
- Toxicology DIN 18035-7, F3188, EN71-3, ASTM F963Z, EPA6010
- PAH Testing ASTM F3496
- Phthalates Testing - internal method
- Thermal Stability - no agglomeration at 110°C/230°F

Very little to no water absorption due to coating

Sulfur cured

Bulk density: 27 – 30 lbs per cubic ft

Dust free

Odorless

Not oily

10-18 gradation

Standard colors available: green and tan

10 year warranty on coating for sportsfields (ensuring 75%+ coverage on product)

16 year warranty on coating for residential (ensuring 75%+ coverage on product)

Typical sieve specifications:

Sieve Size	Min	Max
10	0	5
12	20	30
16	55	70
18	5	20
20	0	5
